Subject: Fiscal Year 2022-23 Program and Accountability Requirements for Student Outcome Data Collection and Submission

This memorandum is to advise local recipients of the California Adult Education Program (CAEP) funds of accountability requirements in the 2022-23 Program Year. This letter and the supporting documents outlining data collection and reporting are located in the [Student Data Collection and Reporting](#) section of the adult education website (www.caladulthood.org) and will provide further clarification and details on program accountability requirements. Due dates for data deliverables can be accessed on the [AEP Due Dates](#) section. Failure to comply with any requirements or deliverable deadlines will be cause for withholding Adult Education Program apportionment payments until requirements are met and performance is considered satisfactory.

Data Accountability Requirements

Consortia receiving Adult Education Program funding from the California Department of Education (CDE) and the California Community College Chancellor's Office (CCCCO) for the 2022-23 program year must submit the required student data. The CDE and CCCCCO require all Adult Education Program agencies to use the following systems to track adult learner progress in the seven authorized program areas and report achievements from the seven-outcome areas designated by Education Code Section 84913.

- K12 agencies, County Offices of Education (COE), and Joint Powers Authority (JPA) are required to use TOPSpro® Enterprise to collect and report adult learner demographics, instructional hours, barriers, and program outcome information. Agencies are required to survey quarterly adult learners for whom a social security number is not available for data matching.
- California Community College Districts (CCDs) are required to use the Chancellor's Office Management Information System (MIS) to enter their adult learner demographics, instructional hours, barriers, and program outcome information.

Note: CCDs that receive WIOA, Title II funding for services under the Adult Education and Family Literacy Act (AEFLA) are required to collect and report all adult learner demographics, barriers, and program outcomes for all adult learners enrolled in their WIOA, Title II funded programs using TOPSpro® Enterprise. In addition, CCDs receiving WIOA, Title II funding must enter all adult learner demographics, barriers, and program outcomes into

their MIS system. Finally, CCDs that are WIOA Title II grantees will continue to collect and report CASAS assessment results using TOPSpro® Enterprise.

Data Accountability Training

The CAEP State Leadership has contracted with the Sacramento County Office of Education (SCOE) to create the Technical Assistance Project (TAP), which offers online and in-person trainings regarding a variety of topics, including meeting Adult Education Program accountability requirements, implementing approved assessments, and using the two data collection systems. The CAEP State Leadership strongly encourages local agencies to attend all available online and in-person accountability training, and to adopt a team approach for trainings and continuous improvement in managing student data outcomes. Positive student learning outcomes drive future grant funding in California's delivery system. More details regarding training sessions are available on the [Events](#) page of the CAEP website. Look for updates in the CAEP weekly newsletter.

MIS Reporting Parameters

There are no separate reporting deadlines for data collected and entered into MIS. Colleges should capture all data relevant to their students and ensure it is entered completely into their local MIS system. Colleges will submit their adult education data through their college's regular data uploads to the Chancellor's Office. There is no separate submission of MIS data to the Chancellor's Office for adult education students.

Regardless of whether colleges report data through TOPSpro® Enterprise for WIOA Title II, colleges are also expected to capture and enter all student data elements into their MIS system.

Enrollment, demographics, barriers, and most student outcomes for noncredit adult education students rely almost exclusively on data entered into the MIS system to populate the LaunchBoard Adult Education Pipeline and the adult education metrics in the Student Success Metrics dashboards. Failure to enter all student data into MIS could result in underreporting of student data in the Adult Education Pipeline, the Student Success Metrics, and in end of year reporting to the legislature. For more details, please see the FAQs section of this document.
