

AEBG TAP

AEBG Data Submission Guidelines Webinar

April 11, 2018 | Chat Transcripts

General Chat

Alicia (SVAEC)	<p>If you are using a 3rd party import and have students who are not enrolled in a class but receive services, is there a way to upload them so that it shows up?</p> <p>Jay: You can record services whether a student is enrolled in a class or not.</p> <p>Jay: To be clear – as long as a student has a valid Student ID and a correctly recorded short term service, then it will be recorded in the AEBG summary. We suggest adding basic demographics and class enrollment, but none of this is required to record attainment of short term services.</p>
Isabel Farga	<p>CTE classes don't need pre and post-test, correct?</p> <p>Jay: Correct</p>
Janie Gaither, STEP Inc.	<p>So is it 40-100 or 70-100?</p> <p>Jay: 70 is what we recommend at CASAS.</p>
Joanna	<p>Previous slide, "students whom received services, yet did not enroll in a class" Please clarify or provide an example</p> <p>Jay: A student who does counseling, orientation, etc. – basically anything short term that does not create enrollment in the classroom</p>
Isabel Farga	<p>When we send the DIR, should we click on the CTE classes to show in the report?</p> <p>Jay: Yes, the DIR should include all 7 AEBG programs, which includes CTE.</p>
Maureen Burt	<p>Do we need daily attendance or is cumulative ok</p> <p>Jay: Cumulative is okay as long as you import at least once a month.</p>
Fabiola	<p>Martha, can we pre-set the instructional level ASE Low by tagging the class?</p> <p>Jay: Sorry this is a student level designation.</p>
Joanna	<p>If a student has passed a section of the GED, does this fall under improved literacy skills?</p> <p>Jay: Many have suggested this, but for now it is not an official AEBG outcomes.</p>

Juana de Anda	So if the student earns has diploma and you mark has diploma you still have to mark ASE high too? Jay: If the student earns the diploma it is not necessary to mark ASE High
Alicia (SVAEC)	They may have enrolled in another adult school program or they may have chosen not to move forward
Alicia (SVAEC)	Is it recommended that teachers have a CASAS login to record attendance? Or should a clerk be entering this attendance? Jay: From CASAS perspective, either plan is okay. You may want to get input from other agencies on this one.
Isabel Farga	How do you access that daily attendance in te? Jay: https://www.casas.org/product-overviews/software/topspro-enterprise/topspro-enterprise-help/instructional-hours
Juana de Anda	Can you add citizenship? Jay: You can, however Citizenship is not one of the 7 AEBG programs.
Aimee Scharer	Do we still enter an AEBG program for students we are required to track that are not part of AEBG? For example, we have students at the college in other ESL classes, but they are not funded by AEBG Jay: Assuming you mean for credit ESL students, then no they don't need to be part of AEBG reporting.
Monica - Mendocino Lake ACE	How do we trouble shoot missing data when we use a 3rd party to collect the initial data. I have students missing "primary goals" but when I go into LACES I see they all have the goal "Complete Training Program" - why isn't this being pulled over into TE? Jay: Goals are not required for AEBG or WIOA II. Jay: If you really want to include them in TE you should import the ENTR file (detailed in section #5 in the TE third party exchange document.)
Aimee Scharer	We have to track all our adult ed students this fiscal year even if they are not AEBG funded, so was trying to figure out how to differentiate these students in TE Jay: The students for AEBG are the ones in the 7 official AEBG programs.
Janie Gaither, STEP Inc.	What would be a feasible primary goal in TE be for a CTE student? Jay: Goals are not required for AEBG or WIOA II. You could select any one listed based on student preference. If none of these seem apply, you can leave it blank.
Jazmin Sioxson TRACY ADULT SCHOOL	Do you know if core performance surveys are still necessary? Jay: There is no survey requirement this year, however this may return next year.
Juana de Anda	If a student passes one part of the gad test, but hasn't completed the GED would we select this as progress in as low to high? Jay: Sorry no – the ASE low/ASE high issue is for high school diploma progress, not for HSE subsections.
