TAP is facilitating regional needs assessment focus groups between now and November, 2018.

The purpose of conducting a needs assessment with regional consortia is to:

- Engage and build relationships with consortia
- Gather information to better understand their current professional development engagement and plans
- How to align TAP's professional development offerings
- How to engage a larger audience from each consortia: administrators, instructors and members
- Most effective methods of communication
- To guide TAP's PD planning for Spring 2019
