Criteria for Noncredit Course Submissions

Local districts are responsible for ensuring that the submitted Course Outline of Record (COR) contains all required elements as specified in section 55002 and that local approval is consistent with all standards in title 5, section 55000 et seq. The Chancellor's Office reviews and approves noncredit course submissions to ensure that courses meet these standards and to validate that the associated data elements for each course are correct and compliant with regulations. The review criteria used by the Chancellor's Office staff are based on the standards for course curriculum established in title 5 and explained in the Noncredit Course Standards section of the Chancellor's Office Program and Course Approval Handbook (PCAH).

Submission and approval of noncredit courses is conducted through review of the following components submitted by local colleges: (1) Completed Curriculum Inventory Proposal Fields for [Course Data Elements](#) and (2) the course outline of record (COR) meeting the standards in title 5, section 55002, and approved by the local governing board.

Noncredit courses are classified into ten legislated instructional areas (nine defined in Ed. Code § 84757 and the tenth is defined in Cal. Code Regs., tit. 5, § 55151). The placement of a course in a given instructional area is driven by the course objectives and target population to be served.

INSTRUCTIONS

Below is a guidance table in order to aid in the submission process. Circle one noncredit category (A through J) that best describes the objectives of the course (do not select multiple categories). The category selected must coincide with field CB22 (Noncredit Category) on the course proposal record in the Chancellor's Office Curriculum Inventory (COCI).
