

Adult Education Educators,

The Health Workforce Initiative, powered by the California Community College Chancellor's Office (CCCCO), is collecting a statewide inventory of needed personal protective equipment (PPE). We are attempting to support the frontline healthcare providers statewide by creating a list of most needed PPE. I am currently waiting for direction from the Office of Emergency Services (OES) on how to deploy this inventory. Some of you may have already donated such supplies to clinical affiliates.

In an attempt as a single source of communication, I have been collecting the information and reporting to the Governor's Office, CCCCCO, and OES daily on the supply chain and already donated items.

We are reaching out to our Adult Education partners also to support the cause and care of the frontline health care workers. If you would please help us to populate the current inventory on hand, if you have donated supplies, you can place in the comment section where the supplies were donated.

Here is the link to the spreadsheet where we are collecting the inventory. See the sheet labeled Adult Schools PPE ppe.strongworkforce.net

Identify who should be contacted to arrange for pickup/delivery of PPE

There are columns on the extreme right of the PPE spreadsheet for this information. It defaults to the primary contact, but should be replaced if there is someone else at your institution who would be best able to make these arrangements. We suggest that you consult with your Incident Command Team if your institution is enforcing controlled access to facilities.

Enter the date you have updated or verified your information

There is a column to the far right to enter this date. This will help us keep track of the currency of our list.

Invite other partners to add to this inventory

If you know of programs in your area and they aren't listed in their respective sheets, please forward this email to them and encourage them to add their information.

Thank you for your assistance. Stay safe, Stay healthy.

We are working with the Office of Emergency Services and Health and Human Services to collect information on PPE, Equipment and Nursing and Allied Health Students readiness for possible clinical deployment (this is not a guarantee at this time).

UPDATES FOR COVID-19 found on the HWI website <http://ca-hwi.org/>

PRACTICE SOCIAL DISTANCING, WASH YOUR HANDS AND STAY SAFE

THANK YOU!

John "JC" Bone Cordova, RN, BSN, PHN
