CAEP Update

COVID-19 forced the world into uncharted territory in a short amount of time. Since the beginning of emergency school closures, the CAEP Office has been tracking the impact of COVID-19 on adult education closely. The CAEP Update provides an analysis of the CDE Adult Education Office Critical Events Survey results, a snapshot of student enrollment via TOPSpro for CAEP, agency highlights, and a list of available resources.

83% has or plan to implement remote learning

75% has moved their ESL classes to a remote platform

50% will not move CTE to a remote platform

70% are using Google Classroom to provide remote learning

Student enrollment data up 2% or 10K

The CAEP Office anticipates student enrollment data will trend downward by next month since not all agencies update student records in TE on a weekly basis.

CAEP teachers learned how to deliver remote instruction in a days/weeks.

Mt. San Jacinto's noncredit classes were 97% online in four weeks.

CCSF distributed at least 200 Chromebooks to Adult Learners.
